ASWANI M S

MERN Stack Developer
aswanims2k03@gmail.com | +91 918 816 7918 | Kannur, Kerala

Portfolio | Github

PROFILE

BCA graduate and MERN Stack Developer with internship experience building scalable, end-to-end web applications. Proficient in JavaScript, React.js, Node.js, Express.js, and MongoDB. Skilled at delivering responsive UIs and robust APIs, and eager to contribute to collaborative, growth-driven teams.

PROFESSIONAL EXPERIENCE

MERN Full Stack Developer Intern | **Camerinfolks Pvt Ltd** *Nov2024–May2025*

- Built scalable, responsive web applications using the MERN stack, contributing to production-ready features from design to deployment.
- Developed reusable React components and RESTful APIs, improving application maintainability and reducing development time.
- Debugged front-end and back-end issues through systematic testing, ensuring optimal application performance and reliability.

PROJECTS

EVENTUM – Event Ticket Booking Platform

Technologies: JavaScript, React.js, Material UI, Node.js, Express.js, MongoDB

- Full-stack ticketing app allowing users to browse, select, and book event tickets online, eliminating physical queues.
- Built React.js front-end with Material UI and RESTful APIs with Node.js/Express.js; used MongoDB for flexible data storage.

SKILLS

Front-End	HTML5, CSS, JavaScript, React.js, Material UI, Tailwind CSS
Back-End	Node.js, Express.js, REST APIs
Database	MongoDB
Tools	Git, GitHub, Vercel, Render
Soft Skills	Problem Solving, Adaptability, Creativity, Willingness to Learn

CERTIFICATIONS

AI For All Program – Intel & CBSE (Digital India)
Completed AI Aware and AI Appreciate stages — covering responsible AI use and real-world AI applications.
